replace_na_community_data_with_zeros
<i>Replace NA in Community Data with Zeros</i>

---

## Description

Replaces NA values in community data with zeros.

## Usage

```
replace_na_community_data_with_zeros(data = NULL)
```

## Arguments

data	A data frame. Must contain ‘dataset_name’ and ‘sample_name’ columns, and at least one taxon column.
------	---

## Details

Converts the data to long format, replaces NA values in ‘pollen\_count’ with zeros, and reshapes it back to wide format.

## Value

A data frame with NA values replaced by zeros.
