get_sample_ages	<i>Get Sample Ages</i>
-----------------	------------------------

---

## Description

Extracts sample ages from a data frame containing dataset and sample info.

## Usage

```
get_sample_ages(data = NULL)
```

## Arguments

data                      A data frame. Must contain the columns 'dataset\_name' and 'data\_samples'.

## Details

Validates the input data frame, ensures required columns are present, and extracts sample ages by unnesting the 'data\_samples' column.

## Value

A data frame with columns 'dataset\_name', 'sample\_name', and 'age'.
