build\_pipeline\_progress\_monitor\_server  
*Build a Pipeline Progress Monitor Server*

---

## Description

Builds the Shiny server function used by the targets progress monitor.

## Usage

```
build_pipeline_progress_monitor_server(  
  monitor_id,  
  path_monitor_config,  
  flag_refresh_automatically  
)
```

## Arguments

`monitor_id`      Single character string identifying the targets watch module.  
`path_monitor_config`      Path to the temporary targets configuration file.  
`flag_refresh_automatically`      Logical indicating whether automatic refresh remains enabled at startup.

## Value

A Shiny server function.
