Apply Trait Review Decisions

Description

Applies approved, non-overlapping trait exclusion and scaling rules.

Usage

```
apply_trait_review_decisions(
  data_trait_records,
  data_trait_review_decisions,
  data_trait_source_scale_record_audit = NULL
)
```

Arguments

`data_trait_records`	Current trait records for one review stage.
`data_trait_review_decisions`	Validated decisions from [validate_trait_review_decisions()].
`data_trait_source_scale_record_audit`	Optional record-level audit from [apply_trait_source_scale_rules()].

Value

A named list containing 'data_trait_records_corrected' and 'data_correction_audit'.
