Plot Manuscript Predictor-Inclusive Variance

Description

Builds the shared manuscript figure for overlapping predictor-inclusive variance contributions across spatial tiers and taxonomic resolutions.

Usage

```
plot_manuscript_predictor_inclusive_variance(data_plot, data_summary)
```

Arguments

`data_plot`	Prepared unit-level predictor-inclusive variance data.
`data_summary`	Grouped median and empirical 95 percent interval data.

Value

A 'ggplot' object with predictor domains in rows and resolutions in columns.
