Prepare One Candidate's Tuning Guardrail Evidence

Description

Validates and reshapes complete repeat-level tuning evidence for one candidate comparison.

Usage

```
prepare_sjsdm_guardrail_tuning_candidate(
  data_tuning_summary = NULL,
  selected_candidate_id = NULL,
  suffix = NULL
)
```

Arguments

`data_tuning_summary`	Repeat-by-candidate tuning summary.
`selected_candidate_id`	Candidate identifier to retain.
`suffix`	Suffix appended to metric columns.

Value

One row per repeat with suffixed tuning metrics.
