Resolve a Pipeline Store Path

Description

Resolves the target store for one pipeline script and optional store suffix.

Usage

```
resolve_pipeline_store_path(
  pipeline_script,
  target_store = load_active_config_value("target_store"),
  store_suffix = NULL
)
```

Arguments

`pipeline_script`	Single character string containing a pipeline script path.
`target_store`	Root targets-store path. Defaults to the active configuration value.
`store_suffix`	Optional non-empty character string nested below 'target_store'.

Value

Absolute path to the pipeline-specific targets store.
