Refresh CZ Decomposition Upstream Targets

Description

Refreshes or validates the CZ paleo resolution-test target store.

Usage

```
run_decomposition_upstream_refresh(
  refresh_upstream = TRUE,
  store_path = here::here("Data/targets/cz_paleo/pipeline_paleo_resolution_test"),
  pipeline_script = "R/Pipelines/pipeline_paleo_resolution_test.R",
  run_pipeline_fn = run_pipeline,
  tar_meta_fn = targets::tar_meta,
  verbose = TRUE
)
```

Arguments

`refresh_upstream`	Logical. If 'TRUE', rebuilds the upstream targets before validation.
`store_path`	Targets store path to validate.
`pipeline_script`	Pipeline script used for the upstream refresh.
`run_pipeline_fn`	Pipeline runner. Defaults to 'run_pipeline()'.
`tar_meta_fn`	Metadata reader. Defaults to 'targets::tar_meta()'.
`verbose`	Logical. If 'TRUE', progress messages are printed.

Value

One-row tibble with refresh metadata and validation status.
