Summarise Spatial Predictor-Inclusive Variance

Description

Summarises unit-level predictor-inclusive percentages for spatial variance figures using medians and empirical 95 percent intervals.

Usage

```
summarise_spatial_predictor_inclusive_variance(data_plot)
```

Arguments

`data_plot`	Data frame returned by [prepare_spatial_variance_plot_data()].

Value

A tibble with one row per scale, resolution, and predictor domain, including 'n_units', 'median', 'lwr_95', and 'upr_95'.
