convert_sjsdm_v1_artifact
<i>Convert a Frozen v1 sjSDM Artifact Bundle</i>

Description

Converts one strictly identified v1 target bundle into the common v2 envelope without modifying its source store.

Usage

```
convert_sjsdm_v1_artifact(  
  artifact_type = NULL,  
  payload = NULL,  
  v1_schema_hash = NULL,  
  pipeline_id = NULL,  
  configuration_profile = NULL,  
  migration_function = NULL,  
  created_at = base::Sys.time()  
)
```

Arguments

artifact_type	Registered v2 artifact type.
payload	Named v2 payload assembled from validated v1 targets.
v1_schema_hash	Frozen v1 schema-fixture hash.
pipeline_id	Source pipeline identifier.
configuration_profile	Source configuration profile.
migration_function	Explicit converter name.
created_at	Conversion time.

2

convert_sjsdm_v1_artifact

Value

Validated migrated v2 artifact envelope.
