build_temporal_trajectory_legend	
<i>Build Temporal Trajectory Legend</i>	

Description

Builds the static legend panel for the IAVS temporal ANOVA component animation, showing component colour swatches and the modularity Q line.

Usage

```
build_temporal_trajectory_legend(  
  vec_required_components,  
  vec_component_labels,  
  vec_component_colours,  
  colour_modularity,  
  vec_palette = NULL,  
  font_family = "VT323"  
)
```

Arguments

vec_required_components	Character vector of component names in display order.
vec_component_labels	Named character vector mapping component names to display labels.
vec_component_colours	Named character vector mapping component names to fill colours.
colour_modularity	Character scalar. Colour for the modularity Q legend swatch.
vec_palette	Optional named character vector of ORACLE colours. If 'NULL', colours are read with 'get_oracle_palette_values()'.
font_family	Character scalar. Font family for all text elements.

2

build_temporal_trajectory_legend

Value

A 'ggplot' legend panel.
