node_box	<i>Build Node Box Geometry</i>
----------	--------------------------------

Description

Creates one-row tibble geometry for labelled schematic boxes used in IAVS figures.

Usage

```
node_box(  
  id,  
  label,  
  x,  
  y,  
  width,  
  height,  
  colour,  
  fill = NA,  
  text_colour = colour,  
  text_size = 2.9,  
  fontface = "bold"  
)
```

Arguments

id	Character scalar identifier.
label	Character scalar display label.
x	Numeric scalar. Box center x position.
y	Numeric scalar. Box center y position.
width	Numeric scalar. Box width.
height	Numeric scalar. Box height.

colour	Character scalar line colour.
fill	Character scalar fill colour.
text_colour	Character scalar text colour.
text_size	Numeric scalar text size.
fontface	Character scalar text face.

Value

One-row tibble with precomputed box extents and styling columns.
