read_model_evaluation_target
Read a Model Evaluation Target

Description

Reads one ‘model_evaluation_<resolution>’ target from a targets store. If the target cannot be read, ‘NULL’ is returned.

Usage

```
read_model_evaluation_target(  
  store_path,  
  resolution_id,  
  read_target_fn = targets::tar_read_raw  
)
```

Arguments

store_path A single character string with the targets store path.
resolution_id A single non-empty character string identifying the model resolution.
read_target_fn Function used to read the target. Defaults to [targets::tar_read_raw()].

Value

The model evaluation object, or ‘NULL’ if it cannot be read.

Examples

```
## Not run:
read_model_evaluation_target(
  store_path = "Data/targets/modern_spatial_continental/europe",
  resolution_id = "genus"
)

## End(Not run)
```
