Index 2

read_target_or_null	<i>Read a Target or Return NULL</i>
---------------------	-------------------------------------

Description

Reads one target object from a targets store and returns ‘NULL’ when the read fails.

Usage

```
read_target_or_null(target_name, store_path, read_fn = targets::tar_read_raw)
```

Arguments

target_name	Character scalar. Target name to read.
store_path	Character scalar. Path to the targets store.
read_fn	Function used to read the target. Defaults to [targets::tar_read_raw()].

Value

Target object when read succeeds; otherwise ‘NULL’.

Examples

```
## Not run:
read_target_or_null(
  target_name = "data_community_analysis",
  store_path = "Data/targets/paleo_temporal_europe/pipeline_paleo_temporal"
)

## End(Not run)
```
