Contents

resolve_design_path 1

Index 2

resolve_design_path	<i>Resolve path to the design configuration file</i>
---------------------	--

Description

Searches for ‘design_config.json’ in the current directory, the presentation root, and the standard repository location.

Usage

```
resolve_design_path(path = "design_config.json")
```

Arguments

path	Character scalar. File name or path to resolve.
------	---

Value

Character scalar – absolute path to the found file.

Examples

```
## Not run:  
resolve_design_path()  
  
## End(Not run)
```
