plot_pipeline_progress_visualisations
Plot Pipeline Progress Visualisations

Description

Builds full and targets-only pipeline progress visualisations in memory.

Usage

```
plot_pipeline_progress_visualisations(  
  sel_script,  
  sel_store,  
  physics = TRUE,  
  level_separation = 250  
)
```

Arguments

<code>sel_script</code>	Pipeline script passed to [targets::tar_visnetwork()].
<code>sel_store</code>	Path to the targets store.
<code>physics</code>	Logical indicating whether network physics are enabled initially.
<code>level_separation</code>	Numeric separation between network levels.

Value

Named list with 'full' and 'static' 'visNetwork' objects.
