Build a Pipeline Progress Monitor Server

Description

Builds the Shiny server function used by the targets progress monitor.

Usage

```
build_pipeline_progress_monitor_server(
  monitor_id,
  path_monitor_config,
  flag_refresh_automatically
)
```

Arguments

`monitor_id`	Single character string identifying the targets watch module.
`path_monitor_config`	Path to the temporary targets configuration file.
`flag_refresh_automatically`	Logical indicating whether automatic refresh remains enabled at startup.

Value

A Shiny server function.
