Plot Manuscript Spatial Variance Partitioning

Description

Builds the shared two-panel variance-partitioning figure used for paleo and modern results: normalized component composition and unit-level association spread with median and 95 percent interval.

Usage

```
plot_manuscript_spatial_variance(
  data_plot,
  data_component_summary,
  data_biotic_summary
)
```

Arguments

`data_plot`	Prepared unit-level spatial variance data.
`data_component_summary`	Grouped component-composition data.
`data_biotic_summary`	Grouped association summary data.

Value

A 'cowplot' assembled plot object.
