Plot Pipeline Progress Visualisations

Description

Builds full and targets-only pipeline progress visualisations in memory.

Usage

```
plot_pipeline_progress_visualisations(
  sel_script,
  sel_store,
  physics = TRUE,
  level_separation = 250
)
```

Arguments

`sel_script`	Pipeline script passed to [targets::tar_visnetwork()].
`sel_store`	Path to the targets store.
`physics`	Logical indicating whether network physics are enabled initially.
`level_separation`	Numeric separation between network levels.

Value

Named list with 'full' and 'static' 'visNetwork' objects.
