Resolve Manuscript Figure Output Settings

Description

Converts the shared graphical pixel canvas to fixed physical dimensions. Review PNG files retain the configured resolution and submission TIFF files use twice that resolution without changing their physical dimensions.

Usage

```
resolve_manuscript_graphical_options(graphical_options)
```

Arguments

`graphical_options`	Named graphical configuration list containing 'width', 'height', 'units', 'dpi', and 'bg'.

Value

Named list containing physical dimensions, review and submission resolutions, and the background colour.
