Save Trait Review Candidates

Description

Writes a generated trait-review queue and returns its path for a 'targets' file target.

Usage

```
save_trait_review_candidates(
  data_trait_review_candidates,
  path_trait_review_candidates
)
```

Arguments

`data_trait_review_candidates`	Candidate tibble from [build_trait_review_candidates()].
`path_trait_review_candidates`	Character scalar output CSV path.

Value

The normalized output path.
