add_model_evaluation *Add Model Evaluation*

Description

Evaluates a fitted Hmsc model using predicted data and returns a list containing the model and its evaluation.

Usage

```
add_model_evaluation(mod_fitted = NULL, data_pred = NULL)
```

Arguments

mod_fitted	A fitted Hmsc model object. Must be of class 'Hmsc'.
data_pred	An array of predicted values. Must be of class 'array'.

Value

A list with two elements: the fitted model ('mod') and the evaluation results ('eval').
